SWISSPECIAL Winter Experiences 2025

Snow Active Day

Snow is even more fun when you're on the move

We take a cable car to our snowshoe hiking area and enjoy the stunning views and peaceful silence of nature. Of course, there will be a mulled wine break in the snow and, if you wish, an avalanche safety crash course. We enjoy a tasty lunch in a cosy mountain hut. If the conditions allow, we'll sled all the way down to the valley.

Winter Wonderland

Enchanted by the magic of snowy landscapes

A blanket of snow transforms the mountains. Discover magical landscapes, hike through quiet mountain forests, and track game trails. Warm your spirits with mulled wine or a hot tea in the snow, followed by a typical Swiss lunch in a cozy mountain hut. This activity is also suitable for people who prefer a more leisurely pace.

Husky Power

The balancing act of action and tranquillity on a dog sled

Ever dreamed of gliding through snow-covered landscapes on a dog sled? After a briefing, you harness the huskies, release the snow brakes and glide silently over the snow. Praise and reward your dogs afterwards. Note: This activity is not suitable for children, as huskies are strong and temperamental.

Adventure Trip to the Farmer's Lunch

On winding paths to the secluded lunch table

Our mountain farmer takes us up the mountain, either by 4x4 or snowmobile, depending on the snow conditions. We then strap on snowshoes to hike downhill, past rocky cliffs and through snow-covered forests to the farm. A delicious lunch awaits us, shared with the farmer's family. The goats too are eager to meet you.

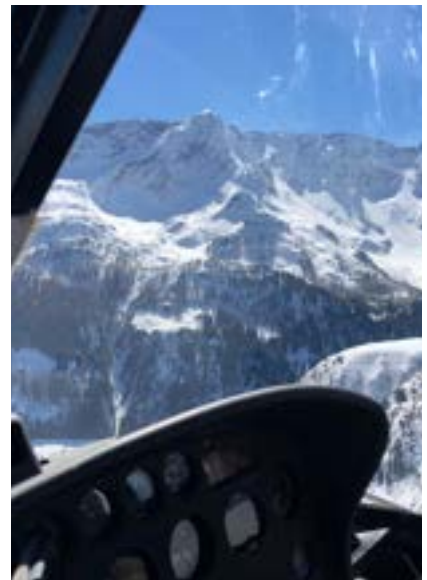

Mountain Adventure by Helicopter

Exclusive high alpine experiences.

Our pilots know many exclusive landing sites. Landing in the snow? A glacier baptism with champagne? Lunch in a mountain hut or simply a scenic flight? Let us plan your adventure. Of course our helicopters are cosily heated and your comfort is taken care of throughout the day. Despite the external high alpine conditions.

Fondue in the Snow

Cheese fondue where it simply tastes best

There's nothing like enjoying cheese fondue after a leisurely snow walk in the mountains. If the weather turns harsh, we enjoy an aperitif outside before heading into the cozy hut for fondue. This is the most authentic way to savour the Swiss national dish. The walk to the hut can be as long or short as you wish.

SWISSPECIAL Winter Experiences 2025

Cheese and Wine Delights

Savor the finest cheeses and wines amidst scenic landscapes

Switzerland is world-famous for its cheese tradition. Less known is that excellent wines are also produced at the foot of the Alps. You will learn the secrets behind these local delicacies directly from the producer. Taste the finest cheeses and wines while enjoying Switzerland's most scenic landscapes.

Make Your Own Swiss Souvenir

Typically Swiss - made by yourself.

Chocolate, cheese, and the Swiss Army knife – these are iconic Swiss classics. Create your own personalized souvenir and take it back home – only the cheese will need to mature in the mountain cellar. Your self-made Swiss treasures will provide lasting enjoyment for you and make a thoughtful gift for family and friends.

**WE MAKE YOUR DREAMS COME TRUE.
ENJOY AND REMEMBER.**

Discover everything you want to know about Switzerland's rich heritage, history, and natural beauty. The itinerary will be tailored to your preferences. Many experiences can be combined to create your perfect adventure. Explore the Alps in style, with car rides in our Land Rover with a panoramic roof, or by snow shoes or exclusively by helicopter or in a snowmobile.
