## Active in the snow

Snow is even more fun when you're on the move.

We take a cable car to our snowshoe hiking area and enjoy stunning views and the peaceful silence of nature. Of course, there will be a mulled-wine break in the snow and, if you wish, an introduction to avalanche safety. We enjoy a tasty lunch in a cosy mountain hut. If conditions allow, we'll sledge all the way down to the valley.

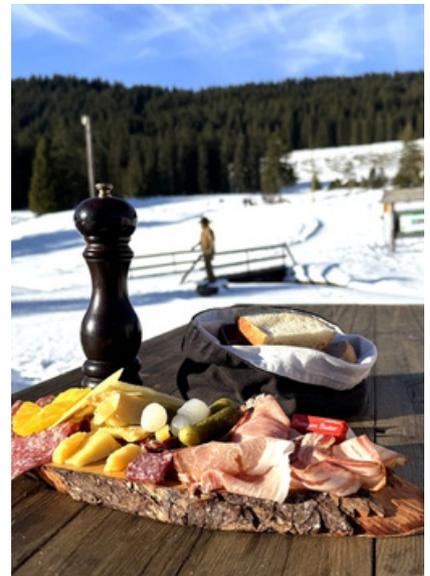

SWISSPECIAL Winter Experiences 2026

## Winter wonderland

Enchanted by the magic of snowy landscapes.

A blanket of snow transforms the mountains. Discover magical landscapes, hike through quiet mountain forests, and track game trails. Warm your spirits with mulled wine or a hot tea in the snow, followed by a typical Swiss lunch in a cosy mountain hut. This activity is also suitable for people who prefer a more leisurely pace.

## Husky experience

A perfect balance of action and tranquillity on a dog sled.

Have you ever dreamed of gliding through snow-covered landscapes on a dog sled? After a briefing, you harness the huskies, release the brakes, and glide silently across the snow. Finally, praise and reward your dogs. Note: this activity is not suitable for children, as huskies are strong and temperamental.

## Adventure trip to the farmer's lunch

Along winding paths to the secluded lunch table.

Our mountain farmer takes us up the mountain, either by a 4x4 or a snowmobile, depending on the snow conditions. We strap on our snowshoes and hike downhill, past rocky cliffs and through snow-covered forests, to the farm. A delicious lunch awaits us, shared with the farmer's family. The goats, too, are eager to meet you.

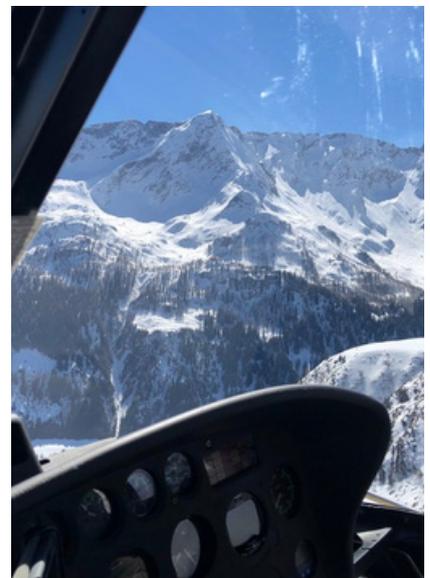

## Mountain adventure by helicopter

Exclusive high-alpine experiences.

Our pilots fly you to exclusive locations in the Alps. Landing in the snow, champagne toast on a glacier, lunch in a mountain hut, or a scenic flight over iconic peaks. We can also turn your hotel transfer into an aviation adventure. All flights are carefully planned with animal welfare and strict alpine regulations in mind.

## Fondue in the snow

Cheese fondue where it simply tastes best.

There's nothing like enjoying cheese fondue after a leisurely snow walk in the mountains. We enjoy an aperitif and fondue outdoors; if it is too cold or uncomfortable, we move to a cosy chalet. This is the most authentic way to savour Switzerland's national dish. The snow walk can be as long or as short as you wish.

## Cheese and wine delights

Cheese and wine from the Alps – a feast for the senses.

Switzerland is known worldwide for its cheese. What is less well known is that excellent wines are also produced in the foothills of the Alps. Meet local producers, discover their secrets, and taste these delicacies in the heart of breathtaking landscapes. A day of delights for both the palate and the eye.

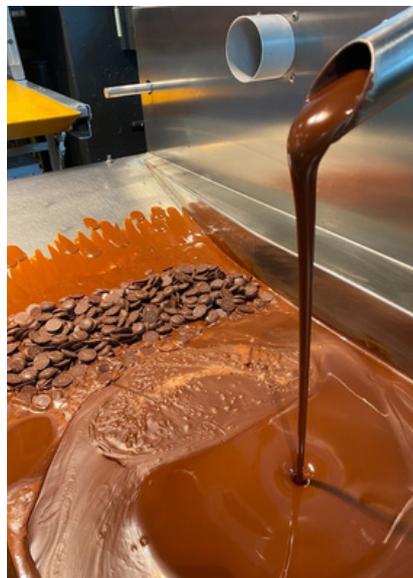

## Self-made chocolate, cheese or knife

Proudly made in Switzerland – by you.

Chocolate, cheese and the Swiss Army knife. Timeless Swiss icons. Create your own personalised souvenir to take home; only the cheese will need time to mature in the mountain cellar. These self-made treasures offer lasting enjoyment and make thoughtful gifts for family, friends and of course, yourself.
