

SUMMER EXPERIENCES 2026

Private Guiding

Discover authentic Switzerland. Inspired by your dreams.
Mountains, lakes, traditions, and adventures.
Tailored just for you.

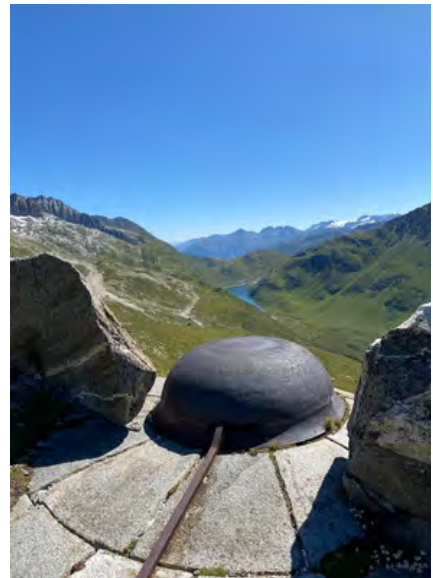

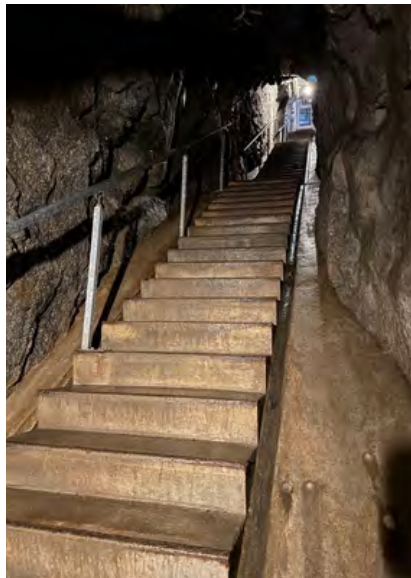

World War II bunkers – history at high altitude

Mountain landscapes as a natural fortress.

The Swiss military has blasted hundreds of bunkers into the mountains. Once top secret, now partially decommissioned, these fortifications are as fascinating as the high alpine environment in which they are built. We follow the traces of war preparations along rough roads and admire the beauty of the surrounding mountains.

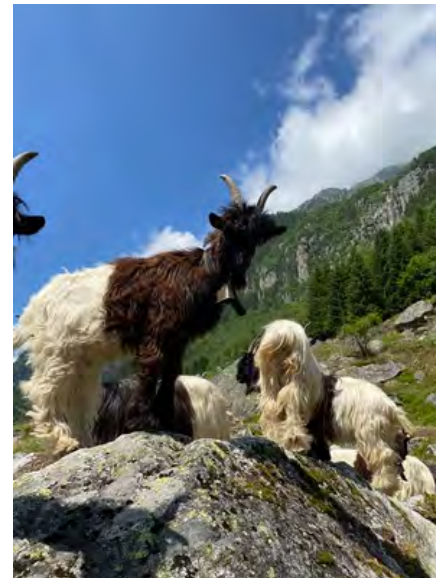

Mountain farming and artisanal cheese

Traditional farming, fresh alpine cheese and friendly animals.

Experience life on a traditional mountain farm, high up and far away from civilisation. Take part in the manual cheese-making process and have a look inside the cheese cellar. Meet cows and goats, and enjoy stunning mountain views. The farms can only be reached by narrow roads or small cable cars, far from the tourist crowds.

Roll up the sleeves for mountain farmers

Lend a hand for a good cause instead of just watching.

On a mountain farm, every extra pair of hands is welcome during the summer months. For one day, you will give your time and energy to a mountain farming family. You will be proud of your work, your harvest, or any contribution you'll make on that day. And above all, you will experience sincere gratitude.

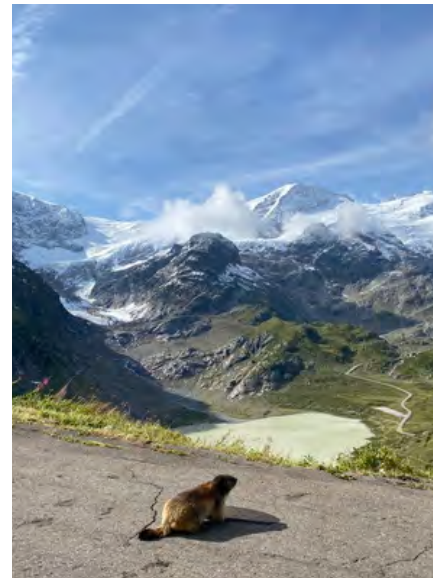

On and off the road through the Alps

On hidden gravel roads and across scenic mountain passes.

The Alps are crisscrossed by countless roads, from picturesque mountain passes to rugged trails built by farmers and the Swiss military. These routes lead to spectacular viewpoints, hidden waterfalls, World War II bunkers, and charming mountain villages. Enjoy lunch in the most spectacular corners of Switzerland.

Mountain adventure by helicopter

Exclusive high-alpine experiences.

Our pilots fly you to exclusive locations in the Alps. Landing in the snow, champagne toast on a glacier, lunch in a mountain hut, or a scenic flight over iconic peaks. We can also turn your hotel transfer into an aviation adventure or you could add a helicopter flight to your day's itinerary at any time.

Hiking with cute animals

Experience nature more intensely with an animal companion.

Hike through scenic alpine landscapes accompanied either by goats, friendly dogs, alpacas, llamas, or ponies. Pass by farms, streams, and mountain forests and enjoy a well-deserved picnic by the campfire or at a farm. Happiness shared is happiness doubled. This is no different between humans and animals.

E-Bike and hike

From bike to hiking trail – adventure for all fitness levels.

Tailored routes take you through stunning alpine landscapes, first by e-bike and then on foot. Experience variety and adventure at your own pace. Stop for a picnic in the great outdoors or relax over lunch in a cosy mountain hut. The perfect mix of activity and enjoyment. And, of course, perfectly accompanied by your guide.

Private boat cruise and shore excursions

Lake Lucerne – Switzerland's most beautiful shoreline.

Mountain peaks, steep forests, and picturesque villages frame the 150 kilometers long shoreline of Lake Lucerne. Excursions range from waterfalls and historic sites to a traditional glass factory. Enjoy an aperitif on board, lunch by the lake, and a refreshing swim whenever you wish. Let's go, there is so much to explore.

Paddling across the lake on an adventure

Canoe, kayak, stand-up paddle – discover Lake Lucerne your way.

Lake Lucerne reveals its beauty best when explored up close. Paddle by canoe, kayak, or SUP. Try one activity, or combine several in a single day. Pause for a picnic in a quiet bay or enjoy lunch in a lakeside restaurant. A guide accompanies you throughout for a safe and unforgettable day on the water.

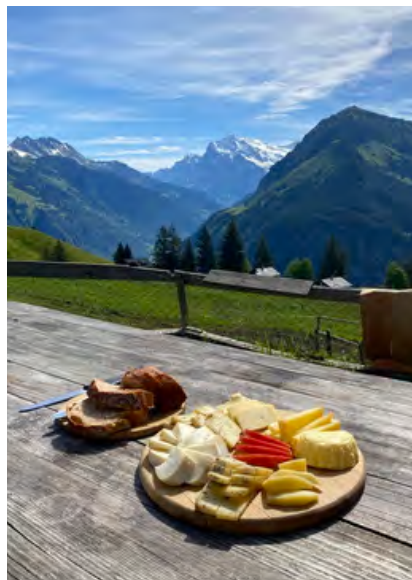

Cheese and wine delights

Cheese and wine from the Alps – a feast for the senses.

Switzerland is known worldwide for its cheese. What is less well known is that excellent wines are also produced at the foothills of the Alps. Meet local producers, discover their secrets, and taste these delicacies in the heart of breathtaking landscapes. A day of delights both for the palate and the eye.

Cheese fondue in its most original form

Swiss delights in the most romantic setting.

Enjoy Switzerland's most iconic dish in the heart of the Alps. After a short hike or a scenic cable car ride, you'll reach a cosy mountain hut or an outdoor spot with breathtaking views. Share a bubbling pot of cheese fondue, served with fresh bread and local delicacies. An unforgettable culinary experience.

Secret mountain spots

Breathe in pure air and feel the power of pristine landscapes.

The Swiss Alps cover 2/3 of the country, with a striking landscape of rock, water, snow, and ice. Explore hidden paths and untouched treasures far away from the crowds. Scenic drives and short hikes lead you to your lunch, enriched by breathtaking views. The beauty of the mountains combined with Switzerland's cultural treasures.

Self-made chocolate or Swiss army knife

Proudly made in Switzerland – by you.

Chocolate and the Swiss Army knife. Timeless Swiss icons. Create your own personalized souvenir to take home. These self-made treasures offer lasting enjoyment and make thoughtful gifts for family, friends and of course yourself. You can easily combine this activity with any other Swisspecial activity to round off your day.
